

SOULTALK WITH ANIMALS

ONLINE COURSE

3 recordings of live webinars (1.5hrs each)
Google drive folder - download or stream videos
Audios included

SoulTalk is about the deeper conversations that touch our lives when we live with animals. It's about giving them a voice as a whole being with personal expression, wisdom and opinion.

In this course we explore the space between us, the space of relationship and shared energy fields. The course is adventure of consciousness, discovering what's really being said between the lines of physical relating and in those quiet moments of communion. It's about how we do life together and grow as soulful companions.

We cover:

- personality, roles and purpose
- shared energy fields and the gifts in mirroring
- soulful messages, guidance and guardianship

Classes include:

- teachings and stories on each topic
- personal practices to deepen your communication with the animals in your life

Paying attention to SoulTalk can change behaviour, health and home dynamics on very practical level and in profound ways, as the animals feel truly seen, heard and respected.
