

## ANIMAL WISDOM WORKSHOP

*Explore the soulful wisdom in all animals, both domestic and wild through animal communication*

Sunday 3 November, 9am to 4pm  
R1700 / Early Bird R1400 (by 7 October)  
Noordhoek, Cape Town

All of nature has spirit within it, which when we stop to ask and listen, can offer us incredible insight, guidance and healing. Domestic and wild animals all have the spark of soul that leads to deeper knowing. Through conscious intuitive communication we can learn so much from them directly making life better for all of us. This includes what their needs are physically, emotionally and spiritually together with how we can help them, plus receiving their guidance and healing for our own journeys.

This workshop is about giving our furry companions an opportunity to be seen and heard as conscious souls where we explore the teachings and gifts of your life together with unconditional love. With wild animals we will connect to their greater essence as powerful spiritual beings and ask for their help in releasing blocks to us embodying our natural gifts for clear intuitive communication with all species.

In communicating this way with animals we are participating in the web of life as sacred activists by working with nature for nature. We give and receive as members of the whole, starting at home and inside of ourselves, to cultivate peace, strength, joy and harmony for all.

**Bring with:**

Please bring with printed images of your own animal family.

**Pre-Requisite:**

This is an intermediate workshop, you need to have completed a foundations workshop with myself or another teacher.
