3. **Email your booking details with photographs** of your animal/s.
4. **Payment:** once we have set an appointment, payment confirms your booking.

### Rates

**Internationals US\$130 / South African residents R1600**

Zoom calls are 50 minutes and I start with the animal/s before our call. Sessions are per animal and family check-ins can be done after individual consults when I know everyone. An audio recording is sent to you within 48hrs.

### On the day

Your animal does not need to be physically with you for the Zoom call. Please make sure they are in their normal routines and restful for the hour before and during our call.

### Photographs

All I need is a photograph of an animal/s with your completed booking form for a session. Please send one clearly named, recent and good quality JPEG image per animal, with their eyes showing.

### Practice hours

Monday to Friday: 8:00 to 16:00 (South Africa - SAST - UCT+2)

# ABOUT SESSIONS

## Inspiring relationships of deep connection, magic and wisdom

In working with animals, my passion is in bringing out the true personality and spirit of each individual animal. This means listening to them in body, mind and soul. What are they needing practically, emotionally and spiritually to be peaceful, happy and fulfilled in their lives. This is my primary purpose in this work, together with your intention and questions for the session. I include energy healing and coaching as needed for them and you in your relationship with them.

Animal communication is a wonderful healing journey for both animals and humans. It changes everyone's lives for the better forever when we take the time to ask and truly listen.

### **Why communicate**

- ✓ Bring out more of their full soulful and radiant selves.
- ✓ Train and transform behavioural issues with kindness and more ease.
- ✓ Meet health care and wellness with a holistic perspective.
- ✓ Grow your own strength in clear 2 way communication with them.
- ✓ Prepare animals for changes like moving home or country.
- ✓ Support animals in their dying as a time of transformation for all.
- ✓ Receive their wise messages for your own self development and growth.
- ✓ Deepen your relationship with all animals and nature for co-creative harmony.

### **How many sessions**

A single session can be all that is needed for an issue, as being heard has a wonderful effect for everyone. You will receive clear action steps for overcoming challenges with love and beauty. In chronic cases follow ups will be advised on as needed.

### **What to expect**

Anything! Animals are thinking, loving and spirited beings. Every individual is a unique make-up of personality, humour, sensitivity, strength, magic, insight and wisdom... just like you know them to be. Animal communication is a rich journey of personal growth and transformation for everyone.

### **Tell your animals about it**

Let the animal/s know your heartfelt intentions for the session and that you've made the date.
